International Journal of Information and Education Technology

CONTENTS

Volume 2, Number 3, June 2012

Automated Decisions in Aware Cricket Ground: A Proposal……..188
P. Ashok Kumar

Transmedia Storytelling: A Study of the Necessity, Features and Advantages……...196
Daryoosh Hayati

Multi-Secret Communication Scheme……201
Y. V. Subba Rao and Chakravarthy Bhagvati

Towards A Comprehensive Semantic Annotation Method for Knowledge Acquisition from Classical Chinese Poetry……..204
Tianyong Hao, Yinsheng Zhang, Fang Xia, and Chunshen Zhu

Estimating Effort in Global Software Development Projects Using Machine Learning Techniques……..208
Mamoona Humayun and Cui Gang

Monitoring Opinions in Online Forums – A Case Study from the Sports Industry……212
Carolin Kaiser and Freimut Bodendorf

A Naïve Recommendation Model for Large Databases……..216
Hosein Jafarkarimi1, Alex Tze Hiang Sim, and Robab Saadatdoost

Applying k-Nearest Neighbour in Diagnosing Heart Disease Patients……...220
Mai Shouman, Tim Turner, and Rob Stocker

A Text Mining Approach to Find Patterns Associated with Diseases and Herbal Materials in Oriental Medicine……..224
Ji Hoon Kang, Dong Hoon Yang, Young Bae Park, and Seoung Bum Kim

An Investigation into the Effect of Stochastic Annual Rainfall on Crop Yields in South Western Australia……..227
Yunous Vagh

Identification of Research Patterns and Trends through Text Mining……233
Su Gon Cho and Seoung Bum Kim

Retrieval of ISR Data for Image Interpretation Exercises……..236
Bela Andreas Bargel and Wolfgang Roller

An Analysis of Knowledge Management Process for SMEs in Developing Countries: A Case Study of SMEs in India and Thailand……...239
Kitimaporn Choochote

User-based Question Recommendation for Question Answering System……..243
Gang Liu and Tianyong Hao

A Pattern-based Annotation Transformation Schema for Knowledge Exchange……...247
Tianyong Hao, Yuanyuan Mu, and Chunshen Zhu

Study of Affordances of iPads and Teachers' Private Theories……...251
Daniel Churchill, Bob Fox, and Mark King

Web-based Creativity Assessment System……..255
Ananda Kumar Palaniappan

Prediction of Chemical Oxygen Demand in Dondang River Using Artificial Neural Network…….259
Anita Talib and Mawar Idati Amat

Employee Participation: Success Factor of Knowledge Management……262
Mum Wai Yip, Alex Hou Hong Ng, and Dominic Hoe Chai Lau

Report Generation on ECGs Survey Data Analysis Using Threshold Based Inference Engine…….265
Saria Safdar, Shoab Ahmad Khan, and Fahim Arif

Balance and Optimization of Network Load Based on Two-way Feedback Ant Colony Algorithm…….270
Dong Li

A Kind of Adaptive Program Design Method……..274
Dong Li

City Sign Design and the Application of Cultural Elements……...278
Xiao Xiao, You Lu, Zhi Wang, and Yanfang Liu

Visualising Mathematical Knowledge and Understanding……..281
David Nutchey
