International Journal of Information and Education Technology

CONTENTS

Volume 10, Number 8, August 2020

Problems and Directions of Development through Analysis of Virtual Reality-Based Education in Korea.....552
Mi Young An, Kyung A Ko, and Eun Ju Kang

Utilizing Graphical Elements for Concept Map Analysis to Design Teaching and Learning Assessment.....557
Suparat Chuechote and Parames Laosinchai

Applying Kahoot in Thai Language and Culture Curriculum: Analysis of the Relationship among Online Cognitive Failure, Flow Experience, Gameplay Anxiety and Learning Performance 563
Jian-Hong Ye, Nitiwat Watthanapas, and Yu-Feng Wu

The Study of Affective Value in Educational Video Production Style Using Kansei Engineering Method.....573
Nur Faraha Bte Hj. Mohd. Naim, and Ag. Asri Ag. Ibrahim

A Comparative Study on Quality Characteristics in Designing Educational Applications 579
Norzila Ngadiman, Shahida Sulaiman, Norsham Idris, and Hasnah Mohamed

Talking-Head, Realism Level and Emotions in Learning: A Conceptual Framework 585
Muhammad Ihsan Rokeman, Ahmad Zamzuri Mohamad Ali, and Mohd Khairulnizam Ramlie

Helping People with Language Learning Disabilities Using Native Mobile Voice Recognition — Exploring Its Limits and Advantages 590
C. Alonso, T. Read, and J. J. Astrain

The Social-Emotional Learning Process to Develop Practicing Skills for Hands-on Students.....597
Kridsanapong Lertbumroongchai, Kobkiat Saraubon, and Prachyanun Nilsook

Augmented Reality Model Framework for Maritime Education to Alleviate the Factors Affecting Learning Experience 603
Rommel E. Balcita and Thelma D. Palaoag

Application of Education Informatization Promoting Educational Equity in Remote Areas of China 608
Sijia Kou

Digital Interactive Quantitative Curiosity Assessment Tool: Questions Worlds 614
Noam Tor and Goren Gordon

The Positive Effects of University Autonomy on e-Learning under the Circumstances of Public Universities in Vietnam.....622
Dinh-Thuy-Huong Nguyen, Ngo-Ho Anh-Khoi, and Thi-Thuy Tran

The Influence of Robots on Students' Computational Thinking: A Literature Review.....627
Kaiqin Yang, Xin Liu, and Guang Chen

Explore and Practice of China's Intelligent “New Engineering” — Based on the Grounded Theory.....632
Qin Jingyi, Li Hua, Chen Xiu, and Feng Wen
