

International Journal of Information and Education Technology

CONTENTS

Volume 15, Number 9, 2025

Beyond One-Size-Fits-All: An AI-Driven Approach for Personalized Quizzes Using Clustering and ChatGPT	1768
<i>Liyuan Liu, Meng Han, Seyedamin Pouriyeh, Yiyun Zhou, and Nasrin Dehbozorgi</i>	
Usability Testing of DataPintar Mobile Application for Learning Data Measurements among Secondary School Students.....	1777
<i>Siti Saidah Mohammed Selamat and Nor Hafizah Adnan</i>	
Learning Scenarios and Tasks for Knowledge Tracing in Virtual Reality: A Systematic Review	1788
<i>Yuying Yang and Geping Liu</i>	
The Impact of Integrating the Wordwall Website in Student-Centered Learning on Numeracy Problem-Solving Skills in Elementary Schools	1797
<i>Adi Apriadi Adiansha, Syarifuddin, Syarifudin, Nanang Diana, and Asriyadin</i>	
Assessing Public Elementary Teachers' Competence in Planning, Management, and Instruction Amid Adaptive Education during the COVID-19 Pandemic	1804
<i>Gempol Nazareno and Ma. Cristilina A. Montañez</i>	
Enhancing Teaching Skills through Digital Feedback in Microteaching: A Study with Prospective Primary Teachers	1820
<i>Zhazira Zhumabayeva, Kulyay Zhaxylikova, Assel Omirzakova, Elmira Aitenova, Manat Zhailauova, and Saniya Nurgaliyeva</i>	
Blended Learning Platform Using Design Thinking Method for Reinforcing Students' Information, Media, and Technology Skills	1829
<i>Kaiyasith Apirating and Charinthorn Aumgri</i>	
Enhancing Higher Order Thinking Skill (HOTS) through Student Engagement and Learning Support.....	1842
<i>Ganefri, Abna Hidayati, Hendra Hidayat, Zadrian Ardi, Ulfia Rahmi, Nofrion, and Andra Saputra</i>	
The Impact of Digital Technologies on the Students' Independent Learning Development.....	1853
<i>Guldaray Akhmetzhanova, Syrym Zhanzhigitov, Botagoz Bermukhambetova, Serikkhan Zhuzeyev, and Manat Zhailauova</i>	
Engineering Students' Performance Prediction on Board Examination Using Classification Algorithms	1864
<i>Jayson A. Batoon and Sarah Jane L. Cabral</i>	
Students' Behavioral Intentions Toward Teachers' Use of Augmented Reality in Higher Education: Insights from the UAE	1873
<i>Rasha T. A. Alnaqeeb, Nor A. Abdullah, Nasuha L. Abdullah, Muthana F. Almasoodi, and Latifa M. A. Alfarsi</i>	

Development of Cooperative Learning by Technoprenuer for Vocational Schools-Augmented Reality Model to Improve the Survival Skills	1884
<i>Sigit Purnomo, Herminarto Sofyan, Ibnu Siswanto, Agustin Anis Ainun, Muhammad Hakiki, Dianna Ratnawati, Resti Utami, and Adhan Efendi</i>	
The Implementation of Blended Synchronous Learning and Its Effects in Kazakhstan.....	1893
<i>Darazha N. Issabayeva, Assel Aryn, Ulzharkyn M. Abdigapbarova, Dinara Sadirbekova, Glyussya A. Abdulkarimova, Aktolkyn Kulsariyeva, Elmira Kaliyaskarova, and Sabira Nishanbayeva</i>	
College Students' Use of Generative AI in Academic Tasks: Integrating Two-Stage Cluster Analysis	1906
<i>Ramachandra C. Torres</i>	
Augmented Reality-Integrated Teaching Materials on Modern Physics: Enhancing Creativity of Prospective Physics Teachers through Collaborative Problem-Solving.....	1915
<i>Arini Rosa Sinensis, Thoha Firdaus, Uli Rizki, and Widayanti</i>	
Blended Learning through the “Digital Classes-Morocco” Platform: Effects on Achievement and Retention in Mathematics.....	1924
<i>Abdellah En-nhiri, Mourad Radi, Ayoub Samdouni, Mouhsine Galai, Rachid Touir, Rachid Echarghaoui, and Hayat Larhzil</i>	
Digital Technology in EFL Education: Students' Emotional and Cognitive Reflections from Blackboard Discussions	1939
<i>Amal A. Metwally</i>	
Integrating Educational Technology in History Learning: Advancing Cultural Awareness and Preservation in Indonesia.....	1952
<i>Fahrudin, Salamah, T. Heru Nurgiansah, Moh. Imron Rosidi, Ismaul Fitroh, Zulkarnain, Darsono, Loso Judijanto, and Arif Saefudin</i>	
Transforming the Professional Development of Computer Science Teachers through Intelligent Technologies: Focus on Digital Competencies and Educational Outcomes.....	1967
<i>Zhandos Zulpykhar, Appak Yessirkep, and Sidi Fatimah</i>	
Enhancing Integrated History Learning through Inquiry Digital Storytelling for Historical Exploration in Virtual Museums.....	1974
<i>Chuthamat Rokaiphet, Sasithorn Chookaew, and Prachyanun Nilsook</i>	
The Implementation of Resource Based Learning Model Assisted by Digital Scrapbook in Improving Student Historical Thinking Skills in History Lessons	1981
<i>Sumardi, Fani K. Nisa, and Mohamad Naim</i>	
Impact of the Application of Mobile Integrated Speech Recognition and Automated Writing Evaluation Software on the University Learners' EFL Speaking Competence	1997
<i>Wenyi Li, Maslawati Mohamad, and Huay Woon You</i>	
The Impact of Using Computer Simulation in Industrial Technology Learning on Student Outcomes	2013
<i>Meriem Bentaleb, Hommane Boudine, Driss El Karfa, and Mohamed Tayebi</i>	
Empowering Education with AI: Automating Content Generation through Large Language Models	2021
<i>Andrew Emanuel Attard and Alexiei Dingli</i>	

Evaluation of Augmented Reality in Developing Students’ Higher Order Thinking Skills.....2031

Hernawan Sulistyanto, Sabar Narimo, Harun J. Prayitno, Devary P. Setyabudi, Bambang Sumardjoko, and Novia W. Wardhani
