International Journal of Information and Education Technology

CONTENTS

Volume 16, Number 10, 2026

The Relationship Between Digital Learning Activities and AI Learning Perceptions: The Mediating Role of AI Literacy 2562
Shinjae Park and Min-gu Kang

Teachers Behavior in the AI Assessment Tools Adoption in Morocco: A Diffusion of Innovation and Technology Using PLS-SEM 2570
Safia Basla, Hanane Achaq, Bouchra Jaima, Mohammed El Moudden, Omar Amahmid, and Said Chakiri

AI Use during Teaching Practice: Pre-service English as a Foreign Language Teachers' Perspectives 2583
Bunga Ayu Wulandari, Akhmad Habibi, Cucuk Budiyanto, Hansein Arif Wijaya, Mohd Sofian Omar Fauzee, Turki Mesfer Alharmali, I Wayan Sumandya, and Hamdy Abdullah

A Context-aware Generative AI Framework for Consistent Visual Learning Materials in Literature Education 2592
Dang Thanh Trung, Nguyen Le Thao Van, Ho Phan Bao Trung, and Dinh Tran Tuyen

Navigating Regulatory Challenges and Opportunities Associated with Digital Transformation in Marketing and Accounting Education 2604
Nafez Ali and Osama Samih Shaban

An Interactive Bot Command Simulation Game for Learning Programming 2621
Wilson Mamani-Casilla, Edilson Mamani-Yucra, Roxana Flores-Quispe, and Yuber Velazco-Paredes

A VR-based Method for Observing Caregiver Intervention Timing under Standardized Childcare Conflict Scenes 2631
Shigeru Owada, Kokone Sato, Shunsuke Kikuchi, Hidenori Aoki, Momoko Nakatani, Yuki Taoka, Tetsuhito Sakata, Midori Takahashi, and Mikako Ishibashi

Generative AI-supported Project-based Learning in Design Education: Effects on Creative Thinking, Student Engagement, and AI Literacy 2645
Zhaodi Li, Jirarat Sitthiworachart, and Mike Joy

Application of Generative Models for Personalized Design Education: Adaptive Approaches in Art-pedagogical Learning 2660
Gulnara Ozharova, Sholpan Akbayeva, Ulzhamal Konakbayeva, and Sholpan Bitemirova

Effects of Project-based Flipped Learning and Learning Motivation on Collaborative and Creative Thinking Skills in Mathematics: A Multivariate Analysis 2669
Pascalian Hadi Pradana, I Wayan Santyasa, I Made Tegeh, and I Komang Sudarma

A Theory-driven LMS-based Intervention for Enhancing Student Motivation, Cognitive Engagement and Performance in Engineering Education 2681
Roshahliza M Ramli, Muhammad Sharfi Najib, and Dwi Pebrianti

The Role of Digital Feedback in Enhancing Academic and Professional Standards in Inquiry Research Writing among Arabic Language Students in a Teacher Preparation Diploma 2692
Rasha Mohmmed Al-Hurani, Mohammad Mowafaq Bani Khaled, and Mohammad F. Hawamdeh

How User Interaction Satisfaction Shapes Success in ERP Simulation Games 2702
Sung Shim

Development of an Application for Project-based Learning to Improve Hard and Soft Skills in 2D Animation Production 2709
Thanyanan Sajjaboriboon

Assessment and Validation of the Scale of Professional Readiness of Future Teachers for the Use of Neural Network Technologies in the Educational Process 2722
Berdimuratova Zhanar, Anara Karymsakova, Zhandos Zulpykhar, Lili Nurliyana Abdullah, and Meruert Serik

Beyond the First Prompt: Preservice Teachers' Intentions and Practices in AI-assisted Lesson Design 2732
Şule Yılmaz Özden, Nahide İrem Azizoğlu, Elife Nur Saydam, and Huijing Wen

Smart University Components Modeling Based on Multi-agent Systems 2745
Ghita Hana, Mostafa Souiyate, and Abdelmjid Saka

Digital Competencies of Secondary School Teachers in Paraguay: An Analysis Based on the Saberes Digitales Framework 2755
Valentina Canese, Juan Mereles, Jessica Amarilla, and Roberto Páez

Designing a Board Game to Support Students' Conceptual Change in Newton's Laws: A Design-based Research Study 2767
Chanamet Vakulchai, Sittichoke Tabthong, and Worasak Prarokijjak

Exploring Relationships between Dialogue and Learners Achievement in Online English Language Courses at Al al-Bayt University 2778
Mamon S. Alzboun, Atef F. Al Mashakbh, Rania A. Bataineh, Hmoud M. Olaimat, Fares A. Mohammad, AbdelKarim H. Makhadmeh, Karam K. Abu A'aqoulah, Rasha A. Enab, and Rehab Tharwat Abd El Ghani

Supervised Machine Learning Algorithms for Predicting Academic Specialization: A Comparative Study 2788
Samira Reguragui, Ahmed Bendahmane, and Abdellatif El Aidi

The Metacognitive Catalysis Model: How Teacher Interaction Amplifies AI-enhanced Translation through Dual-path Mediation 2798
Pengbiao Zhang, Yi Zhu, Fengjunzi Wang, and Xinjin Song

AI-powered Chatbot for Cultural Learning: The Case of Kompang 2812
Vinothini Kasinathan, Samantha Tee Ker Xin, Aida Mustapha, Lim Jia Leong, Tan Wai Ken, and I-Hsien Ting

Modular and Online Learning Experiences of Teacher Education Students in Flexible Learning Implementation 2824
Maria Rebecca B. Talledo, Franxes Ghia U. Tordil, Donna Joy C. Valdez, and Ma. Lourdes Q. Bejarin

Multi-dimensional Data Fusion-based Resource Optimization and Governance Decision-making in Higher Education 2833
Yang Jinyue, Zhong Yuancheng, and Song Haoyan

Development of a Microlearning-integrated Blended Learning Model Delivered via an Online Platform to Enhance Pre-service Teachers' Digital Skills 2839
Panuwat Srichailard and Uraiwan Srichailard
