

International Journal of Information and Education Technology

CONTENTS

Volume 16, Number 4, 2026

- Understanding AI-Assisted Learning Acceptance among Vocational Students: An AIDUA Model Approach853
Jian-Hong Ye, Xiantong Yang, Belle Li, Weiguaju Nong, Jon-Chao Hong, and Li Wang
- Psychometric Evaluation of the Foreign Language Learner Self-Efficacy Questionnaire for English Argumentative Writing864
Lei Zhang, Samah Ali Mohsen Mofreh, Qian Sun, and Sultan Salem
- Methodological Requirements for Using Electronic Educational Resources in Teaching Mathematical Disciplines874
Ademi Batyrbayeva, Sabyrkul Seitova, Galiya Kydyrbayeva, Aiym Yesseikyzy, and Zhalgas Akhmetov
- Team Based Project-Differentiation Learning and AppYet e-Module to Improve Pre-service Teacher’s Creativity .884
Rajo Hasim Lubis, Derlina, Ida Wahyuni, Deo Demonta Panggabean, and Yanthy Leonita P. Simanjuntak
- Evaluating the Evaluators: Metrics for Automated Essay Feedback Generation.....894
Maryam Berijanian, Christopher G. Shaltry, and Dirk Colbry
- Game On!: Development of a Game-Based Mobile Learning Application in Living Things and Their Environment902
Peter Ernie D. Paris and Franz Ian D. Solomon
- Development and Implementation of an Educational Mobile Application for Children with Hearing Impairments921
Gulnaz Salgarayeva, Aigul Makhanova, and Fariza Lakhanova
- From Digital Tools to Civic Engagement: How the NUSANTARA App Enhances Critical Citizenship Thinking ...930
Dedy Ari Nugroho, Eny Kusdarini, Awanis Akalili, and Mukhamad Murdiono
- Pedagogical Proposal for the Teaching of Natural Sciences through the Technological Mediation Course.....942
Isabel C. Muñoz and Karen P. Agudelo
- Factors Influencing Algorithmic Thinking among Pre-Service Primary Teachers: A Structural Equation Modeling Approach.....950
Thai Doan Thi Minh, Huong Le Thi Thu, Duong Lam Thuy, Binh Le Thi, and Vinh Nguyen Huy
- Integrating Project-Based Learning, e-Modules, and Gamification: An Approach to Develop Critical Thinking in Pre-Service Physics Teachers.....959
G. Gunawan, K. Kosim, Nina Nisrina, Ahmad Busyairi, Ahmad Harjono, and Lovy Herayanti
- Acceptability of “More or No More” as a Contextualized Game-Based Pedagogy in Teaching Social Science969
Virgilio P. Rapada Jr.

Enhancing Media Literacy, Academic Achievement, and Engagement in Primary Education through ICT-Supported Critical Thinking Pedagogy	991
<i>Laura Kozhakhanova, Amina Amirova, Gulden Yespolova, Gulnara Omarova, Saule Zhorayeva, and Askarbek Kussainov</i>	
Enhancing Indonesian Higher Students' Dance Performance and Creativity through the Implementation of Mirrors and Self-Recording Video.....	1000
<i>Fuji Astuti, Desfiarni, Nurul Haniza Samsudin, and Annisa Tishana</i>	
From Education to Employment: A Deep Learning Approach to Understanding Job Market Trends in Africa.....	1007
<i>Delali Kwasi Dake, Elijah Ofori, and Selorm Adablanu</i>	
Embracing AI in Academia: Faculty Researchers' Awareness, Acceptance, and Utilization for Scholarly Innovation.....	1020
<i>Andie Tangonan Capinding</i>	
Unveiling the Influence of Digital Tools for Team Communication in the Digital Workspace: Some Evidence from Three Ghanaian Public Universities	1034
<i>John Demuyakor, Justice Issah Abudulai, Rebecca Baah-Ofori, Adwoa Sikayena Amankwah, Martin Segtub, Stevens Justice Avenyo, and Zillah Boye-Doe</i>	
The Effect of Lumi Education-Based Interactive Multimedia on Learning Outcomes: Exploring the Compatibility of Content Types with Student Learning Styles.....	1043
<i>Idam Ragil Widiyanto Atmojo, Wahyu Noor Aryfien, and Matsuri</i>	
Development and Validation of a Mixed-Reality System to Enhance Student Engagement and Learning in Secondary Chemistry.....	1054
<i>Albertson D. Amante, Bryan John A. Magoling, John Paul B. Heje, Louie L. Villaverde, Matthew L. Mendoza, Lee Robert P. Velasquez, and Joash Samuel D. David</i>	
Validating a Multidimensional Competency Model for AI Use in Arts Teaching: A Structural Equation Modeling Approach.....	1068
<i>Chuyen Nguyen Thi Hong, Thieu Nguyen Van, Thai Doan Thi Minh, Trang Duong Thu, and Hoa Tran Thi Kim</i>	
Evaluation of Teacher Candidates' Attitudes, Perceptions, and Opinions towards Artificial Intelligence and Project-Based Learning.....	1076
<i>Yessimbekova Assylzhan, Zhakipbekova Saule, Petkova Iliana, and Zauze Shagatayeva</i>	
Media Richness with Individual and Environmental Characteristics to Enhance Accounting Students' Cognitive Absorption	1089
<i>Muhammad Roy Aziz Haryana, Hendri Hermawan, Rudi Prasetya Timur, and Rochmat Susanto</i>	
Building a Training Model to Enhance Digital Competencies Among Learning Support Teachers in Jordan: Examining the Role of Gender, Academic Qualifications, and Teaching Experience	1103
<i>Burhan Mahmoud Hamadneh, Iyad Mohammed Hamadneh, Malek Turki Jdaitawi, and Mohannad Igdaifan Alseraa</i>	
AI Based Chatbots in Saudi Higher Education Institution: Perceived Benefits and Potential Risks.....	1114
<i>Yousef Almoslamani</i>	

Content-Based Personalized Course Recommendation in e-Learning Ecosystems: A TF-IDF and Similarity Measures Approach.....	1122
<i>Fatima Ezzahraa El Habti, Mohamed Chrayah, Mustafa Hiri, and Noura Akin</i>	
Integrated Virtual Reality Based Geotourism Learning Model to Enhance Vocational Students' Special Competencies.....	1134
<i>Ari Apriyansa, Etin Solihatin, and Mohamad Syarif Sumantri</i>
