

International Journal of Information and Education Technology

CONTENTS

Volume 16, Number 6, 2026

- A Syllabus for Teaching Software Project Management in Undergraduate Computing Courses 1428
Elielton da Costa Carvalho, Sandro Ronaldo Bezerra Oliveira, and Fabricio Wickey da Silva Garcia
- Evaluating User Acceptance in a Pilot A2-Level German MOOC: TAM as Core Framework with Future Integration of Complementary Models 1445
M. Kharis, Desti Nur Aini, Sri Prameswari Indriwardhani, Dudy Syafruddin, and Bouchra Aboura
- Formation of Professionally-Oriented Media Education for Future Teachers-Psychologists in the Era of Artificial Intelligence 1453
Aigul Akhmetova, Saltanat Abylaikhan, Perizat Seiitkazy, Assem Zoldybekova, and Amanzhol Tashetov
- Exploring the Effects of Generative Artificial Intelligence Adoption on Academic Productivity and Pedagogical Innovation: A Mixed-Methods Analysis 1463
Engin Bayra, Emel Aydın, Fatma Nur Çoban, and Adem Çilek
- Disciplinary Differences in University Students' AI Adoption: A Technology Acceptance Model Approach 1473
Yong-Jik Lee and Hyun-Cheol Choi
- Reconstructing Character Education in Elementary Schools through Digital Reflective Applications: Integrating Values, School Culture, and Social-Emotional Intelligence in the SEL Approach 1481
Abdul Manaf, Arita Marini, and M. Japar
- Investigating the Integration of Artificial Intelligence in Learning Assessment: Towards an Automated Remediation 1494
Siham Guenboura, Khalid El Khattabi, Fatima Ouzennou, and Hamza Fakhar
- Integrative Technology-Assisted Learning for Future Biology Teachers: Enhancing Theoretical Knowledge, Practical Competence, and Professional Readiness through Virtual Laboratories and Augmented Reality 1505
Abylaikhan Azimbay, Gani Issayev, Saltanat Ibadullaeva, Nurdana Salybekova, Bauyrzhan Umirov, Toleu Karimzhan, and Indira Aimbetova
- Artificial Intelligence-Driven Personalized Learning Assistants: Combining Large Language Models and Computer Vision for Tailored Education 1518
Osama Hosam
- Blended Learning Strategies to Enhance Student Engagement in Teacher Certification Training 1528
Lu Dan, Johan @ Eddy Luaran, and Nor Tutiaini Binti Ab. Wahid
- The Effects of Mobile Virtual Literature Circles on EFL Reading Comprehension in Rural Indonesia 1538
Herman Khunaivi, Nunung Suryati, Ekaning D. Laksmi, and Niamika El Khoiri
- VRBCS: A Virtual Reality Application for Teaching Basic Programming Concepts to Engineering Students 1547
Vaia Maragkou, Maria Rangoussi, Dimitris Metafas, and Errikos-Chaim Ventouras

An Integrated EdTech Framework for Teaching Graphic Art Courses to Future Art Educators.....	1563
<i>Urazbay Karabalin, Gadilbek Alzhanov, Assel Bekesheva, Ainur Mukhanova, and Maxot Rakhmetov</i>	
Learning with ChatGPT: Awareness, Use and Ethical Readiness among Vietnamese High School Students.....	1573
<i>Nguyen Dang Nhat</i>	
How Does the Metaverse for Kids Enhance the Students' Spatial Ability in Elementary School?	1585
<i>Trimurtini, Elok F. Sari, Moh. F. Irvan, Farid Ahmadi, Elvi Mailani, Muhammad T. Machmud, Nurhudayah Manjani, Robenhart Tamba, and Tassanee Juntya</i>	
From Screens to Innovation: Enhancing Creative Thinking through Flipped Classroom Learning in Primary Computer Science Classes	1595
<i>Ali Ahmad Al-Barakat, Rommel Mahmoud AlAli, Bushra Ahmad Alakashee, Suliman Muhammad Qazaqzeh, Yusra Zaki Aboud, and Mamdouh Mosaad Helali</i>	
Effects of Digital Tools and Innovative Teaching Methods on Innovative Competence, Digital Literacy, and Critical Thinking among Prospective Primary Teachers	1605
<i>Zhazira Stambekova and Aziya Zhumabayeva</i>	
The Emotional Impact of Virtual Learning Environments: A Psycho-Educational Perspective among Upper Secondary Students.....	1614
<i>Sabah Jamil Al-Nawaiseh</i>	
Divergent Success Mechanisms in LMS Adoption: A Multi-Group Analysis of Teachers and Students Perspectives	1624
<i>I Made Dharma Putra, Ni Nyoman Parwati, Ketut Agustini, I Wayan Sukra Warpala, I Kadek Suartama, and Dewa Gede Hendra Divayana</i>	
Model-Eliciting Activities-Integrated Metaverse: Elevating Mathematical Connections and Learning Achievement for Grade 6 Students	1634
<i>Sasitorn Muangmor, Rossarin Jermtaisong, and Pornpilhom Lhongsap</i>	
A Predictive Decision Support System for Student Admissions of Isabela State University Using Data Mining and Deep Learning Techniques	1642
<i>Joe G. Lagarteja</i>	
Artificial Intelligence in Gifted Education: Challenges and Opportunities from Teachers' Perspectives in Jordan.	1653
<i>Samer Ayasrah, Anas Hanandeh, and Yousef Jarrah</i>	
Brain-Based Deep Learning Model Assisted by GeoGebra to Enhance Mathematical Problem-Solving Skills of Prospective Elementary School Teachers	1662
<i>Adi Apriadi Adiansha, Asriyadin, and Azra Fauzi</i>	
Efficacy of Boukili Interactive Application in Enhancing French Reading Skills among Moroccan Fourth-Grade Students: A Quasi-Experimental Study.....	1677
<i>Hajiba El Meliani and Youssef Nafidi</i>	
Meta-Analysis on the Effect Size of Chatbot Integration in Student Science Performance	1686
<i>Joselito Christian Paulus M. Villanueva, Gian Del N. Atalia, and John Lorence A. Villamin</i>	
Gamified Learning Analytics to Enhance the Productivity of Software Practitioners in Agile Requirement Change Management	1699
<i>Denny Sagita Rusdianto, Umi Laili Yuhana, and Hadziq Fabroyir</i>
