

International Journal of Information and Education Technology

CONTENTS

Volume 16, Number 8, 2026

Didactic Solutions for Improving Student Participation: A Design-based Research Project in Social Work Statistics Education	2002
<i>Magdalena Kaufmann and Annina Boehm-Fischer</i>	
Student Cognitive Assessment to Fraction Learning Pathways through Artificial Intelligence	2009
<i>Eleni Lekati, Konstantinos Lazaros, Aristidis Vrahatis, Panagiotis Vlamos, and Spyridon Doukakis</i>	
Virtual Reality Modes in Hotel English Instruction: A Mixed-methods Study of Chinese University Students' Spatial Presence	2023
<i>Huan Meng and Mageswaran Sanmugam</i>	
English Language Education and AI Literacy Role: Perspectives from EFL Faculty Members	2035
<i>Sultan Saleh Ahmed Almekhlafy and Mohammad Saeed Al-Ahmari</i>	
Development and Usability Evaluation of an Intelligent Quiz Repository with AI-based Duplication and Similarity Detection for Instructional Support	2048
<i>Jayson A. Batoon, Menirissa D. De Belen, Reylan M. Evale, and Digna S. Evale</i>	
Development and Empirical Validation of an AI-enhanced Cultural Learning Dashboard for Measuring Samskara, Cesta, and Krtya in Balinese Vocational Students	2059
<i>Gusti Ayu Dessy Sugiharni, Putu Herny Susanti, and Putu Sabda Jayendra</i>	
Assessing Student Needs for AI-based Adaptive Learning in Higher Education	2068
<i>Kazimova Dinara, Turmuratova Dinara, Zatyneyko Anatoly, and Tursyngaliyeva Gulim</i>	
Next-generation Virtual Exposure Technology for Public Speaker Social Anxiety Reduction in Gen Z Learners ..	2079
<i>Sumitra Nuanmeesri, Lap Poomhiran, Shutchapol Chopvitayakun, and Preedawon Kadmateekarun</i>	
Responsible AI Integration in Cyber Education: A Model for K-9 to K-12 Instruction	2091
<i>Md Al Samiul Amin Rishat, Gahangir Hossain, M A Shariful Amin, and Pretom Roy Ovi</i>	
A Quasi-experimental Study of Conversational AI-supported Engagement in Large CS Courses.....	2107
<i>Neha Rani, Sharan Majumder, Ishan Bhardwaj, and Pedro Guillermo Feijóo-García</i>	
Developing Mobile Educational Technology for Academic Stress Detection: Evidence-based SEM Analysis.....	2117
<i>Zadrian Ardi, Ade Herdian Putra, Muhammad Oceano Fauzan, Khairul Alfahani, Indah Sari Rahmaini, and Salsabila Nasution</i>	
Evaluation of Self-efficacy Perceptions and Attitudes towards Augmented Reality of High School Teachers Teaching Chemistry Course	2127
<i>Saltanat Manapova</i>	
Fostering Cybersecurity Awareness and Learning Engagement Using Serious Games.....	2137
<i>Rahayu Ahmad and Mohammed Mohammed-Ramzi</i>	

Developing an Immersive Learning Environment for Visual Sign Language Acquisition on Specific Vocabulary in Print Design: Toward Equitable Education for Deaf Learners	2145
<i>Phobson Tichai, Rueanglada Punyalikhit, and Veerawat Sirivesmas</i>	
The Effect of Teaching Style and E-learning Use on Academic Achievement of Students of Catholic University of Timorese	2155
<i>Maria Lina Soares and Manuel Brito</i>	
Faculty Members' Acceptance of Digital Knowledge Management through AI-based Learning Management Systems in Universities according to the Unified Theory of Acceptance and Use of Technology	2164
<i>Osamah Mohammad Ameen Aldalalah</i>	
Affordable Immersive Learning: Integrating Low-cost Virtual Reality and Problem-based Learning to Enhance Science Comprehension and Digital Literacy.....	2175
<i>Novi Setyasto, Sujarwo Sujarwo, and Sekar Purbarini Kawuryan</i>	
Development of an Intelligent Platform for Automated Assessment and Constructive Feedback on Student-generated Game Character Designs	2189
<i>Vipusit Piankarnka and Pinyaphat Tasatanattakool</i>	
Critical Thinking and Students' Intentions to Use Artificial Intelligence Chatbots for Learning: Evidence from Vietnamese Universities	2200
<i>My-Duyen Thi Nguyen and Diep-Ngoc Le</i>	
Smart Pedagogical Strategies and Autonomous Learning in Higher Education in Peru.....	2210
<i>Priscila E. Luján-Vera, Yuliana Jesus Ruiz Atoche, and Luciana Valeria Arroyo Leon</i>	
The Effectiveness of Physical and Technology-based Virtual Manipulatives in Enhancing Student Engagement: A Meta-analysis.....	2223
<i>Julious E. Napoles, Judy Ann M. Lloveras, Vince Rhodel T. Mangco, Van Baines S. Bascon, Jeson V. Viñas, Joshua M. Ayade, and Jefry E. Aransado</i>	
Beyond Generic Feedback: Personalized Generative-AI to Support Calibration and Performance	2233
<i>Hassna Akhasbi, Najib El Kamoun, Fatima Lakrami, Jean-Luc Gilles, Jean Michel Rigo, and Emilio Aliss Paredes</i>	
Evaluation of the Computational Efficiency of Recurrent Architectures for Student Performance Prediction	2246
<i>Darazha N. Issabayeva, Shirinkyz Shekerbekova, Ainur Bazhibayeva, Akzhol Bakytuly, and Sarsengali M. Aldashev</i>	
Evaluation of Learning Efficiency in MOOC Teaching Systems Based on Kirkpatrick's Model and AHP-fuzzy Comprehensive Evaluation Method.....	2254
<i>Yangbo Wu, Ng Giap Weng, Beng Yu Leau, and Ying Lin</i>	
Enhancing Automotive Vocational Skills through Augmented Reality: A Case Study on Front-wheel Drive Powertrain Learning	2265
<i>Muslim, Donny Fernandez, Nuzul Hidayat, Doni Tri Putra Yanto, Rido Putra, Hsu-Chan Kuo, Muhammad Syafiq Hazwan Ruslan, and Volodymyr Tymofii</i>	
Rethinking Perceived Usefulness in AI-based Learning for Cultural and Sustainability Education Using a Value-oriented Extended TAM	2279
<i>Sasiyanai Sanpang, Kemmanat Mingsiritham, Apisit Thaoyabut, and Gan Chanyawudhiwan</i>
