

International Journal of Information and Education Technology

CONTENTS

Volume 16, Number 9, 2026

Academic Burden and Life Satisfaction in Blended-learning Contexts: Assessing Individual and Structural Challenges through the Study Demands-resources Framework2288

Magdalena Kaufmann, Annina Boehm-Fischer, Christoph Schneider, and Luzi Beyer

Human-centered Design and Evaluation of a Knowledge-based Conversational Agent for Student Well-being.....2295

Jieyu Wang, Li Zhang, Abdullah Abuhussein, Dingfang Kang, and Katherina G. Pattit

Creative Leadership Competencies and Preschool Teachers' Performance: The Mediating Role of Teachers' Creativity and the Moderating Role of Organizational Climate in Fostering Educational Innovation2308

Li Yu and Loy Chee Luen

Personalized Inquiry and Game-based Learning Approaches for Supporting University Students' Achievement and Emotional Engagement.....2317

Narisra Komalawardhana and Patcharin Panjaburee

Defining User-centric Requirements for Virtual Laboratories: A Mixed-methods Study on XR in Engineering Education2327

Heiko Fechtner, Nicole Klewicz, Josephine Martini, and Benedikt Schmuelling

Development of a Technology-enhanced Learning Model to Enhance Teachers' Critical Thinking through Professional and Pedagogical Competencies: A Comparative Study in Indonesia and Malaysia.....2336

Muhammad Iqbal Birsyada, Fahrudin, Esti Setiawati, Palupi Sri Wijayanti, Suyitno, Siti Zahrah Binti Mahfood, Nurul Asyikin Binti Hassan, and Yusri Bin Kamin

Perceptions and Implementation of the STEAM Approach among Spanish Secondary School Teachers2349

Diego Vergara, Paula Tordesillas, Álvaro Antón-Sancho, María Sánchez-Jiménez, and Antonio del Bosque

Adoption, for a Course Preparation and Assessment, of Generative AI in Moroccan Public University Institutions: A Multi-institutional Survey2358

Abdelmajid El Hajoui, Otmane Yazidi Alaoui, Omar El Kharki, Miriam Wahbi, Hakim Boulaassal, and Mustapha Maatouk

Measuring the Impact of Generative AI on College Chinese Writing: A Structural Equation Modelling Approach 2367

Zhiqin Li and Tan Li Huan

Integrating Transformer-based and Embedding Models into Rasa NLU for Vietnamese University Support System 2378

Le Ba Cuong, Le Anh Tien, and Pham Van Huong

EduDesignEval: A Structured Evaluation Framework for Educational Program Designer Using Large Language Models2387

Ayanbek Serikov, Andrii Biloshchyskyi, Aidos Mukhatayev, and Balgyn Zheldybayeva

Artificial Intelligence Learning Experiences and Behavioral Intentions: A Causal Analysis of Generation Z Students in Industrial Education Programs.....	2398
<i>Thamasan Suwanroj, Benchaporn Chanakul, Apisan Siripan, Prachyanun Nilsook, Punnee Leekitchwatana, Kanaporn Kaewkamjan, Orawan Saeung, Oraphan Amnuaysin, Sasitorn Issaro, and Thananan Areepong</i>	
Effectiveness of a Generative AI-Powered Conversational Bot in Teaching Hadith Sciences: Evidence from Al Qasimia University	2137
<i>Rassem Nouri</i>	
Development and Psychometric Validation of the Interactive Communication Scale for Digital Learning Environments (ICDLES)	2421
<i>Shoeb Saleh and Rommel AlAli</i>	
The Impact of Computer-supported Collaborative Learning on the Development of Communication Skills in Primary School Students	2436
<i>Zhuldyzay Amanzholova, Aziya Zhumabayeva, Meirgul Ospanbekova, Sakhipzhamal Uzakbayeva, Kamolakhon Abrorkhonova, and Askarbek Kussainov</i>	
Effects of a Mobile Scaffolding Tool on Design Thinking in Engineering Project-based Learning.....	2444
<i>Hongyan Li, Maixia Fu, Yu Yang, and Hongyue Liu</i>	
Development and Implementation of an AI-based Evaluation Framework for Competency Assessment in Music Education Programs.....	2453
<i>Bundit Chaipanha, Kittikun Jungate, and Sayam Chuanprakhon</i>	
Exploring the Integration of AI Chatbots into Task-based Language Teaching among Chinese Primary School Students: Associations with English-speaking Fluency and Anxiety	2459
<i>Zhai Xin and Siti Nazleen Abdul Rabu</i>	
Linking AI Literacy and Entrepreneurial Intention among Indonesian Vocational Students: The Mediating Roles of Self-efficacy and Digital Competence	2474
<i>Ika Parma Dewi, Yudha Aditya Fiandra, Rahmat Fadillah, and Nora Azima Noordin</i>	
Exploring the Use of Virtual Reality with Struggling Students: Perceptions and Teaching Practices of Life and Earth Sciences Teachers	2487
<i>Asmae Boukarai, Samiha Ben Fares, and Khalid El Khattabi</i>	
Determinants of Student Learning Engagement in National Defense and Security Education under Blended Learning: A Structural Equation Modeling Study in Vietnam	2502
<i>Nguyen Linh Phong</i>	
Predicting the Preparation Level of Future Mathematics Teachers Using Machine Learning Models and Wolfram Alpha Data	2508
<i>Rima Abdualiyeva, Karlygash Shetiyeva, Aigul Aldabergenova, Gulmaral Mashripkhanova, and Assem Yerkinova</i>	
Beyond the Metrics: Exploring the Dynamics of Student Engagement in Online Lifelong Learning.....	2516
<i>Buket Kip Kayabaş and İlker Kayabaş</i>	
Opinion Mining for Educational Data-driven Decision-making in Computing-supported Interventions for Children with Autism.....	2530
<i>Muslihah Wook, Irma Syarlina Che Ilias, Suzaimah Ramli, Noor Afiza Mat Razali, Nor Asiakin Hasbullah, Norulzahrah Mohd Zainudin, and Nor Fyadzillah Mohd Taha</i>	

Instrument Development for Assessing Continuance Intention toward Generative AI Tools in Education2541
Thamer Alshammari

Empowering Teachers for the AI Era: Psychometric Validation of the Instructional AI Literacy Scale.....2551
Chanat Intakanok and Chayawat Siripanthasak
