International Journal of Information and Education Technology

CONTENTS

Volume 9, Number 12, December 2019

A Statistical Study of the Impact of Active Learning on Students' Learning Attitudes toward Physics Based on the CLASS-Phys Survey 849
Xin Gao

Computer Human Interaction in Kid Can Write: An Application for Students with Learning Disabilities 854
Onintra Poobrasert and Natcha Satsutthi

Software Engineering Education for Significant Learning Experience 862
Eun Man Choi

Media Information Literacy to Produce Collaborative Social Capital 868
Masami Yoshida and Jun Iijima

On Prediction of Online Behaviors and Achievement Using Self-regulated Learning Awareness in Flipped Classrooms 874
Feng Hsu Wang

The Development of Blended Leaning Model by Using Active Learning Activity to Develop Learning Skills in 21st Century 880
Nuanphan Chaiyama

Perceptions of Students: Blended Learning for IR4.0 887
Jowati Juhary

The Factors Enhance the Strength of Students' Computer Self-efficacy in a Computer Classroom 893
Yuwarat Srisupawong, Ravinder Koul, and Jariya Neanchaleay

A Study on the Effects of Children's Attitude toward Elder by Intergenerational Programs 898
Meng-Chieh Chao

Comparison Study of Student's Learning Achievement between the Flip Classroom with and without Group Management 904
Kanyuma Jitjumnong and Surachai Suksakulchai

A Study on the Learning Satisfaction and Work Utilization of the Teacher Safety e-Learning 909
Mi Hwa Song and Tea In Han

The Effect of Willingness to Participate in Family Value to Intergenerational Learning Program among College Students 918
Yu Jen Lin and Tai-Fen Chen

Exploring the Influencing Factors of Undergraduates' Continuance Intentions in e-Reading APPs (EIFUCIEA) 924
Wenqian Lai and Li Zhao

Programmable Logic Controller (PLC) Protected Transformer Banking Trainer Kit for Electrical Engineering Education.....933
Anthony M. Minoza, Blondie T. Sanchez, and Jayson C. Loreto
